

Broadband & Wireless

From the first mile to the last mile, today's robust broadband applications require a future-proof fiber optic cable solution. TiniFiber® Micro Armor Fiber® Optic Cable offers broadband operators and service providers a resilient, flexible and easy to install solution that can go the distance – all the way to last mile connectivity.

MDU

Efficient fiber connectivity for Multi-Dwelling Units (MDUs) with minimal disruption. Simplified installation through tight spaces and shared infrastructure ensures high-speed, future-proof performance for every unit.

FTTH

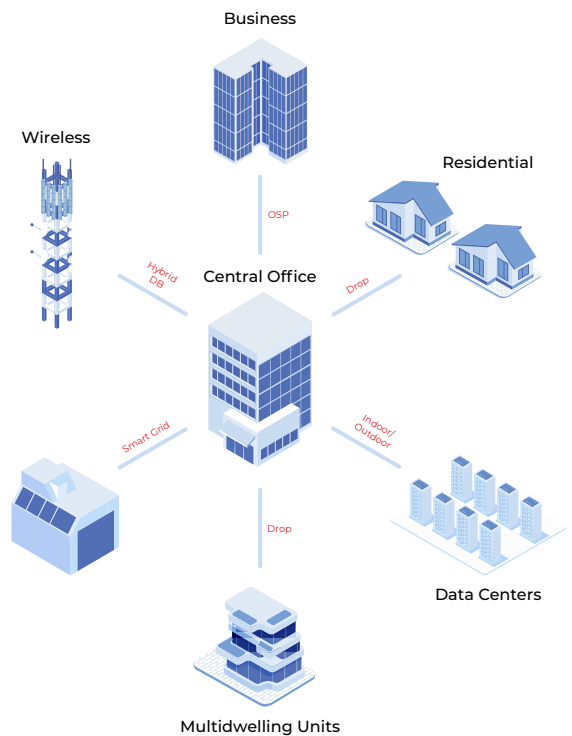

Faster FTTH (Fiber to the Home) deployment, optimum transmission integrity and future-proof, deep-network performance.

Wireless (DAS)

High-performance fiber connectivity that supports Distributed Antenna Systems (DAS) with minimal disruption. Flexible routing through tight spaces ensures consistent coverage and capacity for today's wireless demands.

Core Micro Armor

Reliable, compact armored fiber designed for backbone and long-haul applications. Its smaller profile enables easier installation while delivering maximum durability and protection for critical network infrastructure.

Features & Benefits

Smaller Cable Diameter

Increased Flexibility

Durable Design

Smoother Jacket

Rodent Resistant

UL Listed

OSHA Safe

Lower Shipping Cost

Lower Installation Costs

Crush Resistant

Customizable Solutions

TiniFiber Broadband Products

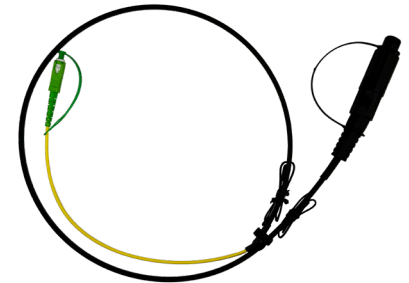

FTTH - LZSH

Part Number:
TF1-OS2-LSZH-WHITE-SCU/SCA-5M

FTTH - Plenum

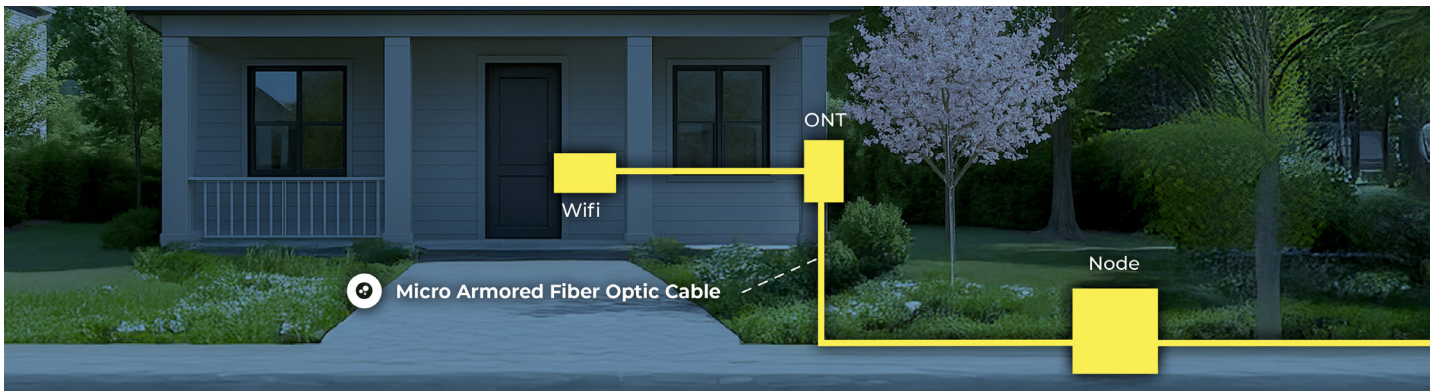

Part Number:
TF1-OS2-PLO-SCA-SCA-5M

FTTH - LZSH

Part Number:
TF1-TAPQL-04B-SCA-OPTISCA

Broadband Cable Ordering Information

Product Types

- ⦿ Fiber to the home (FTTH)
- ⦿ Outside Plant
- ⦿ Antenna

Fiber Category

- ⦿ OS2
- ⦿ OM3
- ⦿ OM4

Notes:

1. Most connector types are available with UPC or APC end face geometry
2. Multi-channel assemblies also available in different polarities, i.e. cross-over cables
3. Interferometer report available upon request
