

12-fiber, 25 inch Fan-Out Kit

TF-BK-009-12-0025I Features:

- Buffers 250 μm fiber to 900 μm
- Color coded to TIA/EIA-598 standard

TiniFiber's Fan-Out Kits speed and simplify the termination of loose tube 250 μm fiber cables, protecting these cables within a 900 μm buffer tube. The cables are color coded to TIA/EIA standards and incorporate a unique snap-unsnap design that requires no epoxy and no heatshrink and enables re-entry for easy repositioning and troubleshooting.

Specifications

Fan-out type	Buffer tube
Storage & transport temperature	-30 to 80°C (-22 to 176°F)
Operation temperature	0 to 65°C (32 to 149°F)
Tubing	PVC over polypropylene inner tube
Housing	ABS
Jacket crimp	Copper alloy (brass)
Cable type	Cable with 250 μm fiber
Fiber count	12
Tubing length	25-inch
Tubing outer diameter	0.9 mm
RoHS	Free of hazardous substances according to RoHS 2002/95/EG
